

SIDDHARTH S KATTA

CONTACT

9108790562

siddharthkatta2002@gmail.com

SKILLS

- DBMS- MySQL, MongoDB
- Data Visualization:- Power BI, Tableau, Excel
- Languages:- Python, C, C++, Java, HTML, CSS, Javascript
- Machine Learning:- Pytorch, Tensorflow, Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Beautifulsoup
- Generative AI
- Leadership and Teamwork
- Management Skills

EDUCATION

B.E. Artificial Intelligence and Machine learning, R.V. College of engineering
2021-2025

The International Baccalaureate® (IB) Diploma Programme (DP), Jain International Residential School
2019-2021

CERTIFICATIONS

- Game theory - NPTEL
- Design Technology and Innovation – NPTEL (Topper in the Course)
- DATA SCIENCE 2023, Udemy
- CS 50 By Harvard, EDX
- The Business Intelligence Analyst Course 2023, Udemy
- Advanced Learning Algorithms (Coursera)
- Generative AI with Large Language Models (Coursera)
- The Full stack Development, Udemy
- Completed a course in Tensorflow for Deep Learning BootCamp trained by Andrei Neagoie
- Completed a course on Development of a Multi-Thread Kernel and developed one such kernel.

PROFILE

Hello, I'm Siddharth, a dedicated and passionate student pursuing a Bachelor's degree in Artificial Intelligence and Machine Learning (AIML). My deep interest in technology, particularly in software engineering, AI&ML, and Data Science has fueled my academic journey, inspiring me with the transformative potential that it holds across various domains. I excel in analytical thinking and problem-solving, which equips me to navigate complex challenges with precision. I'm also a firm believer in the power of collaboration; working with like-minded peers who share my enthusiasm for it is something I find incredibly rewarding, as it drives us to collectively achieve our goals.

INTERNSHIP

COE-AI Research, (Boston Consulting x RVCE)

- Intern for COVID-19 Prediction Software: visualize, predict and forecast the growth of the Coronavirus under guidance of Dr. B Satish Babu: (HOD,AIML) RVCE, Bengaluru.

Vidyakosha

MACHINE LEARNING OPERATIONS:

- Developed and implemented various pipelines and tools to efficiently store, deploy, and manage deep learning and machine learning models.
- This involved selecting the most appropriate model for specific tasks and conducting thorough analysis of the results.

ADVANCED DATA PREPROCESSING FOR MACHINE LEARNING:

- Designed and applied advanced preprocessing algorithms and machine learning techniques to enhance data processing efficiency and achieve reliable results.

COE- E-Mobility, (Morris Garage x RVCE):

- **ADVANCED ASSISTED DRIVING SYSTEM:**
- Working on developing and optimising deep learning algorithms that help in performing crucial decision making such as automated braking system, automated lane shift warning, advanced cruise control systems.

OTHER PROJECTS

- **Gita Bot:-** Developed a machine learning model based on Gita's Principals. It is a chat bot that helps you answer values based questions.
- **Knee Osteoarthritis Detection Developed and implemented a deep learning algorithm for early knee osteoarthritis (OA) detection in collaboration with healthcare professor**
- **Job Description and Resume Matching | Python, NLTK, Streamlit, PyCharm**

EXTRA CURRICULAR ACTIVITIES

- **Convener:** of Team Dhi Club, RVCE (AI&ML Club)
- **Volunteer:** (teaching assistant at Indian Institute of Education Management and hospitality volunteer at Rotaract Club, RVCE)
- **Core Team:** of Entrepreneurship Cell, RVCE
- **Core Team:** of Team Chimera (Electric Vehicle Club), RVCE
- **Head of Finance and Events:** at Uddaan Foundation, Bengaluru
- **Head of Cooperate Partnership:** at The Period Society, Bengaluru
- **Represented Karnataka For Tenpin Bowling at Uniply 30h National Tenpin Bowling Championships-2023, Bengaluru**
